

PowAirBox II A Coupling - 10 m

Fully equipped, pre-assembled coupling for the 230 V power and compressed air supply PowAirBox II with 10 m cable.

- // Pre-assembled cable
- // Easy to install
- // Sustainable manufacturing in Germany
- // Current and compressed air connectors in the clutch can be replaced if necessary
- // Compatible with PowAirBox I

With the introduction of the PowAirBox II feed, we have focussed on sustainability and created many advantages, such as a shortened supply chain and repair options. We have now also transferred these advantages to the PowAirBox coupling:
All plastic parts originate from the EU.
Final assembly is done entirely in Germany.
Power and compressed air contacts in the PowAirBox II coupling can be easily replaced when servicing is required.

Technical Information

Cable length	10 m*
Compressed air	Yes*
Nominal voltage	230 V*

*In the chosen option
