DC-DC Converter PV6i 24-12 V/6 A

Galvanisch getrennter DC-DC-Wandler von 24 V Eingangsspannung auf 12 V Ausgangsspannung in kompakter Schaltnetztechnik, leicht, rüttel- und vibrationsfest mit IP53.

- // Compact switched-mode technology
- // Shake and vibration-resistant
- // Galvanically insulated

The galvanically insulated DC-DC converter of the PV series easily converts a 24 V on-board power supply voltage into a steady 12 V on-board power supply voltage. The devices in the PV series are characterised by their compact dimensions, low weight and high efficiency.

The DC-DC converter is attached with a practical mounting clip, which makes installation easy and minimises installation time. A green LED indicates the operating status of the DC-DC converter.

Technical Information

| | |
|-------------------------------------|--------------------------------|
| Galvanically isolated | Yes* |
| Input voltage (DC) | 24 V* |
| Number of outputs | 1* |
| Output voltage (DC) | 12 V* |
| Power | 72 W* |
| Bias current | < 15 mA |
| Connector | 6.3 mm flat push-on connection |
| Input voltage range | 17 ... 32 V |
| International Protection (IP class) | IP53 |
| Level of efficiency | > 85 % |
| Operating temperature | -25 °C ... +30 °C |
| Output current | 6 A |
| Dimensions (L x W x H) | 50 x 127 x 87 mm |
| Weight | 0.41 kg |
