

PowAirBox II A adapter to Schuko plug, 10 m, IP68

10 m adapter cable with Schuko plug and bayonet lock for connection to the PowAirBox II. Particularly robust with IP68 protection.

- // Pre-assembled cable
- // Easy installation
- // Sustainable production in Germany
- // More maintenance-friendly than previous model
- // Fully compatible with PowAirBox I

With the release of the PowAirBox II power supply, we have focussed on sustainability and created many advantages, such as a shortened supply chain and repair options. We have now transferred these advantages to the couplings and associated adapters for the PowAirBox II:
All plastic parts originate from the EU.
Final assembly takes place entirely in Germany.
Power and compressed air contacts in the PowAirBox II coupling can be easily replaced when servicing is required.

Technical Information

Cable length	10 m*
Compressed air	Yes*
Connector, AC input	Schuko plug*
International Protection (IP class)	IP68*
Contacts	L1/PE/N
Current (AC), max.	16 A
Nominal voltage	230 V

*In the chosen option
