

Inverter AJ 1000-12

Inverter for operating commercially available 230 V devices with a continuous output of 800 watts from a 12 V DC power source.

- // Reliable
- // Save
- // Maintenance-free

The AJ 1000-12 inverter is specially designed for the operation of commercially available devices with 230 V AC voltage on a 12 V DC power source and is perfectly suited for electrical consumers aside from the public mains supply . Due to its efficient and generously designed construction, this sine wave inverter offers a high power reserve, which, in addition to its reliable continuous load capacity of 800 watts, allows a current output of 1000 watts for 30 minutes.

Product information sheet

Product number: 0201011208

Date: 19.05.2026

Technical Information

| | |
|-------------------------------------|-------------------|
| Nominal voltage (battery) | 12 V* |
| Output power (AC), continuous | 800 W* |
| International Protection (IP class) | IP30 |
| Level of efficiency | > 93 % |
| Output Shaft | Sine Wave |
| Output Voltage (AC) | 230 V |
| Output power (AC), 30 minutes | 1,000 W |
| Dimensions (L x W x H) | 84 x 428 x 142 mm |
| Weight | 8.5 kg |
