

Inverter AJ 600-24

Inverter for operating commercially available 230 V devices with a continuous output of 500 watts from a 24 V DC power source.

- // Reliable
- // Save
- // Maintenance-free

The AJ 600-24 inverter is specially designed for the operation of commercially available devices with 230 V AC voltage on a 24 V DC power source and is perfectly suited for electrical consumers aside from the public mains supply . Due to its efficient and generously designed construction, this sine wave inverter offers a high power reserve, which, in addition to its reliable continuous load capacity of 500 watts, allows a current output of 600 watts for 30 minutes.

Product information sheet

Product number: 0201012404

Date: 30.06.2026

Page: 2/2

Technical Information

Nominal voltage (battery)	24 V*
Output power (AC), continuous	500 W*
International Protection (IP class)	IP30
Level of efficiency	? 94 %
Output Shaft	Sine Wave
Output Voltage (AC)	230 V
Output power (AC), 30 minutes	600 W
Dimensions (L x W x H)	84 x 240 x 142 mm
Weight	4.5 kg

*In the chosen option
